

i-OMEGA TOP B1236 LINE SPECIAL

EN ISO 20345:2022
SB E WPA PS CI FO SR

Sizes 35 - 48

UPPER

Nabutek leather

LINING

SmellStop

Antibacterial and anti-odor lining. It prevents the proliferation of microorganisms responsible for bad odors and mycosis.

DRY FOOT SYSTEM

Dry'n Air COMFORT +

Made with soft and resilient material for long-lasting comfort. Built-in system of perforations to make it breathable over the entire surface.

MIDSOLE

EH Fresh'n Flex

New Electrically Insulating high-performance puncture-resistant insert

PS (Nail 3mm - Force 1100 Newton).

TOE-CAP

SlimCap

SOLE

EH AirTech + tpu-skin®

New Electrically Insulating compounds. Tread thickness reduced to values never achieved before. Results: greater elasticity and cushioning effect.

RECOMMENDED WORK SECTORS

PLUS

1

ELECTRICAL HAZARD

i-Omega is an electrically insulated protective shoe COMPLYING WITH THE AMERICAN ASTM STANDARD for electrical resistance to 18,000 V for 1 minute with a leakage current of less than 1 wA (milli Ampere).

Electrical insulation is ensured by the bottom made entirely of insulating components and the absence of metal components. Protection against electric current is ensured in dry conditions.

We recommend using these shoes in combination with:

- insulating gloves;
- insulating mats.

2

Padded collar to guarantee a maximum confort and to avoid the inflammation of the sinew.

3

LATERAL PROTECTION

Reduce the risk of injury in case of lateral impact.
