Dear Portwest Customer,

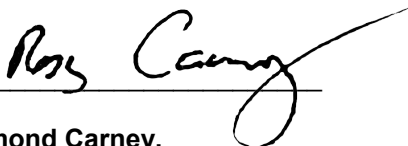

**Declaration of Product Conformity  
According to the Reach Regulation (EU) No. 1907/2006**

The products your company or organisation buys from Portwest are considered sufficiently free of harmful substances under REACH (EC Regulation No. 1907/2006).

REACH Article 33 requires suppliers of articles to inform their customers of the presence in the article of substances of very high concern (SVHC) included in the candidate list (REACH Article 59) above a concentration of 0.1% weight by weight, so that information to allow safe use can be provided.

Portwest can confirm to the best of our knowledge that none of our products contain restricted substances listed under Annex XVII of the REACH Regulation (EC) No.1907/2006 above the individual limit values or SVHCs -Substances of Very High Concern above 0.1% weight by weight.

Portwest is fully supportive of the various industry efforts throughout the world to phase out the use of undesirable elements from PPE products and manufacturing processes. We will continue to actively monitor the candidate list for additions, and should it be necessary, we will provide safety information to our customers at the earliest opportunity.

**Raymond Carney,  
Director of Product and Purchasing,  
Portwest UC**
